Contract Summary:

Blackwell was awarded the ECI contract to provide further information and close out a number of the more technical planning conditions on this 18 turbine wind farm, 55km North West of Aberdeen.

The work was competitively tendered and secured on the basis of both best value and a comprehensive quality proposal document.

Key Processes:

Blackwell have been appointed to undertake the following:

- Discharge of construction and design related planning conditions.
- Initial track layout and drainage design.
- Design of site access point and visibility splays
- Provide comprehensive costing information for the construction phase.
- Provide a construction phase programme of works.
- Review proposed design and consider what improvements to the layout can be made with regard to buildability and programme.
- Prepare a scope of works for the necessary ground investigation works
